

Dramatically simplify your healthcare audits & inspections, reduce the admin burden and save time (lots of it) - in one incredibly simple mobile app.

-  **No more paperwork**
-  **No more lost forms or incomplete data**
-  **No more filing or emailing**
-  **No critical errors**

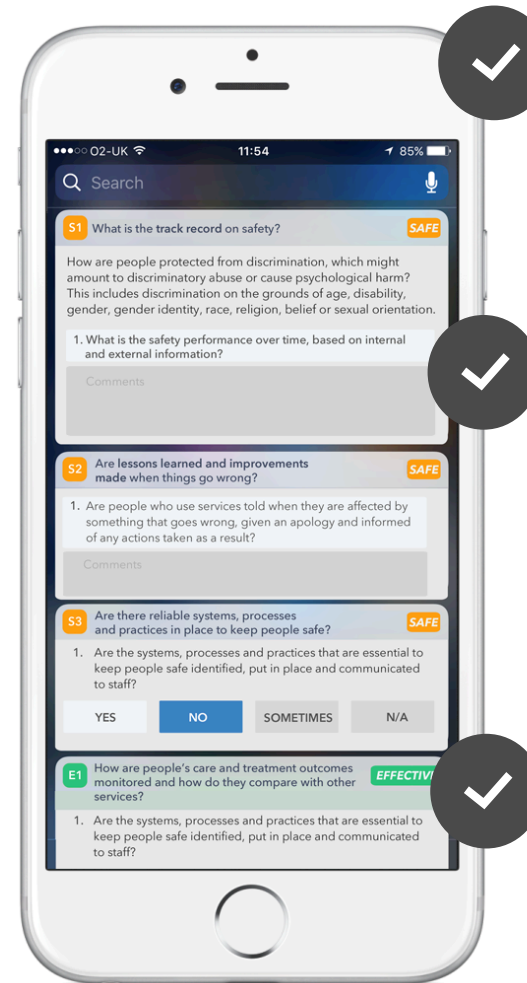

The MyAudit mobile app ensures nothing important can be missed, overlooked, or lost in your auditing process, with real-time dashboards, automatic follow-ups and reminders, and tracking of corrective actions.

“Environmental audits used to take a day for each one. The MyAudit mobile app is so easy that we now complete them in 2 hours”

Director of Nursing

Purpose-built for healthcare auditing, MyAudit dramatically simplifies your healthcare inspections in a powerful and incredibly **easy-to-use mobile app.**

Manage all your healthcare audits and inspections in one simple app and prove your compliance in real time

Beautifully simple

We've made completing any inspection as easy as tapping a button or taking a picture.

Improve auditing outcomes

With MyAudit, everyone takes the same steps, in the same order, for total consistency, standardised reporting and rigorous compliance.

Avoid critical & costly failures

MyAudit ensures nothing important can be missed, bypassed, or lost in your auditing process.

Become a healthcare auditing hero in 6 steps

1 Easy to deploy. Incredibly easy to use.

Not everyone is an IT whizz. That's why we've made MyAudit as easy as tapping a button or taking a picture.

Works with iOS and Android

2 Collect data - anytime, anywhere

Accessible from your pocket so that nothing can be missed, overlooked or lost in the process. Available on any device - iOS & Android even offline.

No more paper & spreadsheets

3 Assign tasks & actions

Track progress of allocated tasks & actions, with automatic follow ups and reminders of corrective actions.

Give back critical clinical time

4 Real-time visibility & status

Immediately see the status of multiple inspections and track progress on steps to completion.

Avoid the cost of failure

5 At a glance reporting & risk scoring

Easily track your clinical risks with RAG (Red, Amber, Green) indicators.

Total consistency for the best compliance score

6 Improve quality and compliance scores

Complete, consistent and rigorous reporting improves compliance and auditing outcomes.

Become an auditing hero!

Unlock the power of intelligent auditing...

All annual audits and clinical or non clinical inspections in one place, accessible anytime, anywhere.

Pre-built and loaded standard and customised inspection and compliance audits.

All templates, including NICE guidelines and KLOE audits, automatically updated when revised.
